# JOHN DEERE MOWERS

Easy Cutting interests every man who is going to buy a mower. Power at the Knife is what is wanted. The Dain Vertical Lift Mower has strong cutting qualities because of the economical transmission of power from the drive wheels. It is a well known fact that any pair of Gears working together has a tendency to push out of Mesh. The heavier the work the greater the tendency. By setting the Gears on the Dain so this thrust action of one pair opposes that of the other, the thrust is neutralized. The Gears always runs true and free on the bearings. Each Gear Keeps the other in mesh and running on the correct pitch line. Thereby making the mower easy of draft and a powerful cutter. We sell it under a very strong Guarantee as to its Cutting qualities, and durability. We would be pleased to have you call and look it over.

# THE RYAN VEHICLE & MACHINERY CO.

134-140 E. Adams St. Phoenix, Ariz.
